

Wenxin Zhang

CONTACT INFORMATION	Kravis 1190, 665 W 130th St New York, NY, USA. 10027	+1 (646) 726-3329 wz2574@columbia.edu https://wenxinzhang0.github.io/
EDUCATION	Columbia University , New York, NY, USA • Ph.D. Candidate in Decision, Risk, and Operations • Advisors: Santiago R. Balseiro, Will Ma Tsinghua University , Beijing, China • Bachelor of Engineering in Industrial Engineering, Minor in Data Science and Technology	2021 – 2026 (expected) 2017 – 2021
RESEARCH INTERESTS	I am broadly interested in dynamic resource allocation, especially for large-scale computing systems that power modern machine learning services. I combine stochastic models, optimization, and control-theoretic methods to design simple, deployable algorithms with strong theoretical performance guarantees.	
JOURNAL PUBLICATIONS	“Dynamic Pricing for Reusable Resources: The Power of Two Prices,” with Santiago R. Balseiro and Will Ma. <i>Operations Research</i> (Forthcoming). “A Gilmore-Gomory-Type Construction of Integer Programming Value Functions,” with Seth Brown, Temitayo Ajayi, and Andrew J. Schaefer. <i>Operations Research Letters</i> , 2021.	
REFEREED CONFERENCE PROCEEDINGS	“Feature Based Dynamic Matching.” with Yilun Chen, Yash Kanoria, and Akshit Kumar. <i>Proceedings of the ACM Conference on Economics and Computation (EC)</i> , 2023. “Distributed Load Balancing with Workload-Dependent Service Rates,” with Santiago R. Balseiro, Robert Kleinberg, Vahab Mirrokni, Balasubramanian Sivan, and Bartek Wydrowski. <i>Proceedings of the ACM Conference on Economics and Computation (EC)</i> , 2025.	
WORKING PAPERS	“Distributed Load Balancing with Adversarial Arrivals,” with Santiago R. Balseiro, Robert Kleinberg, and Balasubramanian Sivan. Journal Version Under Preparation. “Tail-Optimized Caching for LLM Inference,” with Yueying Li, Ciamac Moallemi, and Tianyi Peng. Accepted at 3rd ICML Workshop on Efficient Systems for Foundation Models , 2025. Journal Version Under Preparation. “Distributed Load Balancing with Workload-Dependent Service Rates,” with Santiago R. Balseiro, Robert Kleinberg, Vahab Mirrokni, Balasubramanian Sivan, and Bartek Wydrowski. Submitted to <i>Operations Research</i> . “Feature Based Dynamic Matching,” with Yilun Chen, Yash Kanoria, and Akshit Kumar. Major Revision at <i>Operations Research</i> . “Leveraging Offline Data for Online Decision-Making in Bayesian Multi-Armed Bandits,” with Santiago R. Balseiro and Will Ma. Journal Version Under Preparation.	
INDUSTRY EXPERIENCE	Student Researcher , Google Research NYC • Hosted by Balasubramanian Sivan. Student Researcher , Google Research NYC • Hosted by Balasubramanian Sivan. Worked on distributed load balancing. Data Science Intern , ParkHub • Designed algorithms for real-time pricing based on historical data and booking trends.	June 2025 - present April – August 2024 October – December 2023

HONORS AND AWARDS	Deming Doctoral Fellowship	2025 – 2026
	Doctoral Fellowship, Columbia Business School	2021 – 2026
	Outstanding Undergraduate at Tsinghua University and Beijing	2021
	National Scholarship, Ministry of Education of China	2020
TEACHING EXPERIENCE	Columbia University, Teaching Assistant	
	Revenue and Supply Chain Management (MBA)	Summer 2024
	Operations Management (EMBA Core)	Spring, Fall 2024
	Managerial Statistics (EMBA Core)	Fall 2023, 2022
	Managerial Statistics (MBA Core)	Fall 2023
	Healthcare Management, Design, and Strategy (MBA)	Fall 2021, 2022
SELECTED TALKS	Distributed Load Balancing with Workload-Dependent Service Rates	
	Marketplace Innovation Workshop (MIW), virtual	May 2025
	NYC Operations Day PhD Colloquium, New York	April 2025
	INFORMS Applied Probability Society Conference, Atlanta	July 2025
	Economics and Computation (EC) conference, Stanford	July 2025
	Leveraging Offline Data for Online Decision-Making in Bayesian Multi-Armed Bandits	
	INFORMS Annual Meeting, Seattle	October 2024
	Dynamic Pricing for Reusable Resources: The Power of Two Prices	
	POMS-HK International Conference, Hong Kong	Jan 2025
	INFORMS Annual Meeting, Phoenix	Oct 2023
PROFESSIONAL SERVICES	Revenue Management and Pricing (RMP) conference, London	July 2023
	Manufacturing & Service Operations Management Conference (MSOM), Mon- treal	Jun 2023
	Marketplace Innovation Workshop (MIW), virtual	May 2023
	NYC Operations Day PhD Colloquium	May 2023
	DRO PhD student social co-chair	2022-2024
	Co-organizer for the NYC Operations Day PhD Colloquium	2023
SKILLS	Programming languages: Python, L ^A T _E X, R, C/C++, SQL, Gurobi Languages: Chinese (native), English (fluent)
